	of the 22nd instant stating that seventeen of the persons implicated in the marder of Mr. Margary will be executed at Bhamo on the 5th of next month in the presence of a British cacort. The statement is considered to be at
	all events incorrect, as the British escort would only reach Mandalay on the 29th and would thus be unable to reach Bhamo on the date given by the Allahabad journal.
-1	I fancy the report is premuture—not incor- rect, and I take it as in indication that the Chi- ness will not fight. They will lie, even if they are found out—then they will lie again, and go on lying, until by crawling, wriggling, dodging;
	and crying, they creep out of the mess. THE BARBADOES AFVAIR. The Barbadoes affair will no doubt exoite some degree of attention in Hongkong. The
	Vincent, St. Lucia, Tobago, and Grounda, form a group of islands, each having separate executive establishments and local legislative
(A)	councils. Lord Carnarvon seeks to place them all under one and the same government; anking the capital in Barbudoes. The plan is as simple and it is necessary, and whilst the four last
	named islands assent to the arrangement, the loom government of Burbadoes objects. The fact scens to be, that, owing to or counstances which occurred many years ago arising out of
	the distress which tollowed emancipation, the local government of Barbadoes fell into the hands of the planters, who have managed things their own way over since. They so regulate
	matters as to enforce cheap labour and to tax articles of consumption used by labourers. They seem to be exclusive, oppressive, proud, and dictatorial. Mr. Hennessy, the Governor, acting under Lord Carnarvan's instructions, broached
	the subject of federation in a manner highly int- mical to the governing, dominant class. I pre- aumo the Governor lost his temper and excited authority. At all events the working classes
	were made aware that confederation would im- prove their condition by reducing taxition, and that their local rulers resisted the movement. Consequently riots ensued—soldiers had to be
	Estates were burned, the police and Demerara. Estates were burned, the police and to fire on the mob, killing and wounding from 25 to 40, and taking 500 prisoners. The Governor test bome telegrams concluding and distorting these facts.
7	The colonists sent telegrams exaggerating them, and so matters stand. Lord Carnaryon will carry his point, the planters will have to encount, and the rioters made to feel that they
	can't do as they please. The Governor will have to be upheld, removed, and promoted, with a caution not to be so clumsy in future. THE MAIL COMPANIES. The P. and O. are beating the Messageries
	now-n-days. The French mail which left Hongkong on the 23rd March, and was due here on the let, was only delivered yesterday, while the English mail which left Hongkong on
· ·	the 30th March and not due until the 3th, is to be delivered to morrow morning. This is indeed reversing the order of things.
	Next to a diary, the most difficult thing to keep is a lead pencil. M. A. Hirschberg has recently found that the addition of a smull quantity of borax and borio acid to milk preserves it fresh for a considerable
	time. The requisite proportion, however, has not yet been ascertained; but, although boric acid nots as a poison, its is harmless in small quantities, and alters the taste of the failk but
